2ND ESO SPEAKING EXAM (1ST TERM)
"MY DAY YESTERDAY"

In this term we are going to make a video of our daily routines, but in past!
You will work individually this time and NO, it is not a requirement to appear in the video, in this case, you will need to find the character of your project.

Find the instructions here:

- Think and prepare a situation. Choose wisely the actions you want to show on your video.
- Think of the things you do (or would like to do) every day and write them down!
- Write (handwriting in your notebook) a script for your video-podcast of what you want to say and turn it in. The teacher needs to correct it :)
- Ask the teacher an interview to help you read and pronounce properly in your video.

As for grammar and vocabulary:

- You need to speak for about 1-2 minutes, and so needs to last your video.
- In your video you need to use the past simple, at least, 5 affirmative irregular verbs, 5 affirmative regular verbs, 5 negative verbs, 5 questions.
- As well, you need to use the vocabulary of emotions we worked with the "mini challenges" of Halloween and/or the emotions learnt in this unit 1.
- Remember you have to structure your video, for that, you will need to use the connectors the teacher told you in class the day she explained the project.

You have to send your video in .mp4, .mov, .avi, .wmv. Send it to my email esterbernabeu@sjysp.net using googledrive, wetransfer, airdrop, pendrive.
When in doubt, ask your teacher before deadline!

Remember:
You need to be creative! Use your imagination! Be respectful and enjoy what you do!

Learning can be fun if you want it to be.
